

Mixing station for 1000-liter tanks

208042-EM21P

Fully pneumatic mixing station for 1000-liter tanks (standard dimensions: 1200 x 1000 x h=1160 mm).

The Airmation station allows perfect mixing of products in tanks with exclusive access from the top (standard cap with DN 150 mm hole). Pneumatic controls for lifting, lowering, and complete agitator control with integrated safety devices (drum presence, mixing height) ensure efficiency and safety during mixing operations.

Equipment 208042-EM21P includes:

- PMRV040-V25 pneumatic agitator Stainless steel
- Elevatore pneumatico 210742)

Key features of equipment 208042-EM21P:

- Centralized compressed air connection: G 3/8" (F)
- Max motor power(@ 6 bar): 4 CV
- Stall torque: 11,8 Nm
- Engine air supply: 2 - 6 bar
- Pneumatic lift stroke: 1100 mm
- Air consumption at maximum power: 1,9 m3/min
- Balanced propeller: Rotating double-wing
- RPM (no load): 20 - 2500
- Total shaft length (from flange face): 855 mm

Optional

- Versions with different power ratings
- Propellers for specific applications
