

Mixing station for drums 200 ÷ 600 / 1000 liters

3220740-EM08E

Pneumatic elevator for maximum safety and stability during operation, suitable for mixing even during ascent and descent phases for ingredient incorporation.

Equipment 3220740-EM08E includes:

→ Pneumatic lift 320810-02	
→ Lift capacity	200 kg
→ Drum clamping device BK-1000-S2	clamps drums from ø 590 to 1010 mm
→ Agitator with electric motor	stainless steel
→ Electrical control panel	

Optional

→ Protective grill cover	stainless steel
→ Jacketed rotating shaft	stainless steel
→ Suction system	stainless steel

Essential equipment features:

→ Electric motor power:	7,5 cv (5,5 Kw) - 4 poles
→ RPM (with inverter):	400 ÷ 1720
→ Total shaft length (from flange):	800 mm
→ Pneumatic lift stroke:	1000 mm
→ Impellers supplied (stainless steel)	
- n.1 cowless:	ø 300
